105TH CONGRESS 2D SESSION

H. R. 4170

To amend title IV of the Public Health Service Act to establish a National Center for Bioengineering Research.

IN THE HOUSE OF REPRESENTATIVES

June 25, 1998

Mr. Gutknecht (for himself and Ms. Eshoo) introduced the following bill; which was referred to the Committee on Commerce

A BILL

To amend title IV of the Public Health Service Act to establish a National Center for Bioengineering Research.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "National Center for
- 5 Bioengineering Research Act".
- 6 SEC. 2. FINDINGS.
- 7 Congress makes the following findings:
- 8 (1) Bioengineering is an interdisciplinary field
- 9 that applies physical, chemical, and mathematical
- sciences and engineering principles to the study of

- biology, medicine, behavior, and health. It advances knowledge from the molecular to the organ systems level, and develops new and novel biologics, materials, processes, implants, devices, and informatics approaches for the prevention, diagnosis, and treatment of disease, for patient rehabilitation, and for improving health.
 - (2) Efforts to reduce Federal budget deficits require that resources be managed in ways to maximize productivity.
 - (3) As part of the NIH Revitalization Act of 1993, Congress asked for a report on the state of bioengineering research at the National Institutes of Health.
 - (4) In 1994, as requested by the Congress, an External Consultants Committee submitted a report to the Director of the National Institutes of Health on support for bioengineering research.
 - (5) In 1995, the Director of the National Institutes of Health submitted a report to Congress on Support for Bioengineering Research, that included recommendations for greater coordination of bioengineering research.
- 24 (6) In 1996, an amendment to the National In-25 stitutes of Health Revitalization Act of 1996 di-

1 rected the Secretary of Health and Human Services, 2 acting through the Director of the National Institutes of Health, to "prepare and submit to the Com-3 mittee on Labor and Human Resources of the Senate and the Committee on Commerce of the House 5 6 of Representatives, a report containing specific plans 7 and timeframes on how the Director will implement 8 the findings and recommendations of the Report to 9 Congress entitled Support for Bioengineering Re-10 search submitted to Congress in August 1995 in 11 compliance with Public Law 103-43, the National 12 Institutes of Health (NIH) Revitalization Act of 13 1993, Section 1912". This legislation passed the 14 Senate but was not acted upon by the House.

- (7) In the spring of 1997, the National Institutes of Health established the Bioengineering Consortium, with representation from each of the institutes, to advance bioengineering and its mission within the National Institutes of Health.
- (8) Legislation is needed to support and further the efforts already begun by the National Institutes of Health in order to maximize the health benefits for the American people.

1	SEC. 3. ESTABLISHMENT OF NATIONAL CENTER FOR BIO-
2	ENGINEERING RESEARCH.
3	(a) In General.—Subpart 2 of part C of title IV
4	of the Public Health Service Act (42 U.S.C. 285 et seq.)
5	is amended by adding at the end the following:
6	"SEC. 425A. NATIONAL CENTER FOR BIOENGINEERING RE-
7	SEARCH.
8	"(a) Establishment.—The Director of the Na-
9	tional Heart, Lung, and Blood Institute shall establish,
10	within the National Heart, Lung, and Blood Institute, a
11	National Center for Bioengineering Research (in this sec-
12	tion referred to as the 'Center'). The Center shall be head-
13	ed by a director, who shall be appointed by the Director
14	of the National Heart, Lung, and Blood Institute.
15	"(b) Purpose.—The purpose of the Center is to—
16	"(1) promote basic research in bioengineering;
17	and
18	"(2) establish an office to enhance the state of
19	and improve coordination of bioengineering research
20	conducted within the National Institutes of Health
21	and throughout the Federal Government.
22	"(c) Duties.—The Center shall—
23	"(1) enhance bioengineering research at the
24	National Institutes of Health by—
25	"(A) increasing the proportion of National
26	Institutes of Health funds that are devoted to

1	basic rather than applied bioengineering re-
2	search;
3	"(B) improving the review of bioengineer-
4	ing grant applications; and
5	"(C) increasing intramural research in bio-
6	engineering;
7	"(2) convene a conference of bioengineering ex-
8	perts representing relevant Federal agencies, aca-
9	demia, and private sector entities to make rec-
10	ommendations to the Director of the Center regard-
11	ing—
12	"(A) setting the agenda of the Center; and
13	"(B) identifying promising research direc-
14	tions and emerging needs and opportunities in
15	bioengineering research;
16	"(3) promote joint funding of collaborative bio-
17	engineering research projects conducted by the na-
18	tional research institutes and other agencies of the
19	National Institutes of Health or conducted by any
20	such institute and another Federal entity;
21	"(4) enhance communication among bio-
22	engineering investigators within Federal agencies
23	and with private sector entities;
24	"(5) educate members of Congress and the pub-
25	lic on the critical importance of bioengineering in en-

- 1 hancing the diagnosis and treatment of disease and 2 strengthening the economy; "(6) annually convene a group of bioengineering 3 experts from Federal agencies and private sector en-5 tities to advise the Director of the Center; and 6 "(7) prepare and submit to Congress, through 7 the Director of the National Institutes of Health, an 8 annual report. 9 "(d) LIMITATION.—The Center may not use amounts provided under this section to award grants. 10 11 "(e) AUTHORIZATION OF APPROPRIATIONS.— 12 "(1) FOR THE CENTER.—There is authorized to 13 be appropriated \$750,000 for each fiscal year for 14 the general operation of the Center. 15 "(2) For general bioengineering activi-16 TIES.—There is authorized to be appropriated 17 \$20,000,000 for each of the fiscal years 1998
- Director of NIH among the bioengineering activities being carried out by the national research institutes and other agencies of the National Institutes of Health.".

through 2007, to be allocated at the discretion of the

- 23 (b) Conforming Amendment.—Section 401(b)(2)
- 24 of the Public Health Service Act (42 U.S.C. 281(b)(2))
- 25 is amended by adding at the end the following:

18

- 1 "(F) The National Center for Bioengineering
- 2 Research.".
